

Amendments to the Drawings

The attached Replacement Drawing Sheets containing Figs. 9 and 14-16 replace the originally-filed drawing sheets containing Figs. 9 and 14-16 of this Application.

Remarks

This Amendment is being filed in response to the Notice to File Corrected Application Papers dated March 29, 2007 (hereinafter referred to as the "Notice"), a copy of which is enclosed. The Notice indicates that Figs. 9 and 14-16 as originally filed include deficiencies requiring correction. In particular, the Notice indicates that the character of the lines, numbers, and letters of Fig. 14 is poor. Applicant has amended Fig. 14 accordingly and has provided a corrected drawing sheet with this amendment.

The Notice also indicates that data, a reference number, a part of the drawing is truncated or missing in Figs. 9 and 15-16. Applicant has amended Figs. 15 and 16 accordingly and has provided corrected drawing sheets with this amendment. Applicant notes that Fig. 9 as originally filed included "two sample *fragments* of constructed baseline element state machines" (page 9, paragraph 29). Therefore, no part of the drawing of Fig. 9 is truncated or missing. Applicant has, however, amended Fig. 9 to include dashed lines to provide further clarity that the state machines illustrated in Fig. 9 can include additional fragments or segments and that only a portion of the machine is being illustrated in the drawing. Applicant has provided a corrected drawing sheet of Fig. 9 with this amendment.

In light of the above, Applicant believes that the informalities identified in the Notice have been corrected.

Respectfully submitted,

A handwritten signature in cursive script that reads "Molly S. Damsheuser".
